12.2 Project reviews

The Contractor or the granting authority may carry out reviews on the proper implementation of the action and compliance with the obligations under the Agreement (general project reviews or specific issues reviews).

Such project reviews may be started during the implementation of the action and until the time-limit of 5 (five) years from the final date of the PowerUp NetZero project (30/09/2033). They will be formally notified to the coordinator or beneficiary concerned and will be considered to start on the date of the notification.

If needed, the Contractor or the granting authority may be assisted by independent, outside experts. If it uses outside experts, the coordinator or beneficiary concerned will be informed and have the right to object on grounds of commercial confidentiality or conflict of interest.

The Beneficiary concerned must cooperate diligently and provide – within the deadline requested – any information and data in addition to deliverables and reports already submitted (including information on the use of resources). The Contractor or granting authority may request beneficiaries to provide such information to it directly. Sensitive information and documents will be treated in accordance with Article 4.

The Beneficiary concerned may be requested to participate in meetings, including with the outside experts.

For **on-the-spot visits**, the Beneficiary concerned must allow access to sites and premises (including to the outside experts) and must ensure that information requested is readily available.

Information provided must be accurate, precise and complete and in the format requested, including electronic format.

On the basis of the review findings, a **project review report** will be drawn up.

The Contractor or the granting authority will formally notify the project review report to the coordinator or beneficiary concerned, which has 30 days from receiving notification to make observations.

Project reviews (including project review reports) will be in the language of the Agreement.

12.3 Audits

The Contractor or the granting authority may carry out audits on the proper implementation of the action and compliance with the obligations under the Agreement.

Such audits may be started during the implementation of the Action and until 5 years after the POWERUP NETZERO project has ended and received the final payment. They will be formally notified to the Beneficiary concerned and will be considered to start on the date of the notification.

The Contractor or the granting authority may use its own audit service, delegate audits to a centralised service or use external audit firms. If it uses an external firm, the beneficiary concerned will be informed and have the right to object on grounds of commercial confidentiality or conflict of interest.

The Beneficiary concerned must cooperate diligently and provide – within the deadline requested – any information (including complete accounts, individual salary statements or other personal data) to verify compliance with the Agreement. Sensitive information and documents will be treated in accordance with Article 4.

For on-the-spot visits, the Beneficiary concerned must allow access to sites and premises (including for the external audit firm) and must ensure that information requested is readily available.

Information provided must be accurate, precise and complete and in the format requested, including electronic format.

On the basis of the audit findings, a draft audit report will be drawn up.

The auditors will formally notify the draft audit report to the Beneficiary concerned, which has 30 days from receiving notification to make observations (contradictory audit procedure).

The final audit report will take into account observations by the beneficiary concerned and will be formally notified to them.

Audits (including audit reports) will be in the language of the Agreement.

12.4 European Commission checks, reviews and audits

The European Commission has the same rights of checks, reviews and audits as the granting authority.

12.5 Access to records

The Beneficiary must give the Contractor, granting authority and the European Commission access to their statutory records for the periodic assessment.

12.6 OLAF, EPPO and ECA audits and investigations

The following bodies may also carry out checks, reviews, audits and investigations – during the action or afterwards:

- the European Anti-Fraud Office (OLAF) under Regulations No 883/201322 and No 2185/9623
- the European Public Prosecutor's Office (EPPO) under Regulation 2017/1939
- the European Court of Auditors (ECA) under Article 287 of the Treaty on the Functioning of the EU (TFEU) and Article 257 of EU Financial Regulation 2018/1046.

If requested by these bodies, the Beneficiary concerned must provide full, accurate and complete information in the format requested (including complete accounts, individual salary statements or other personal data, including in electronic format) and allow access to sites and premises for on-the-spot visits or inspections – as provided for under these Regulations.

To this end, the Beneficiary concerned must keep all relevant information relating to the action, at least until 5 years after the end of the POWERUP NETZERO project and, in any case, until any ongoing checks, reviews, audits, investigations, litigation or other pursuits of claims have been concluded.

12.7 Consequences of checks, reviews, audits and investigations in this grant

Findings in checks, reviews, audits or investigations carried out in the context of this grant may lead to grant reduction or grant termination.

Rejections or grant reductions after the final payment will lead to a revised final grant amount.

Findings in checks, reviews, audits or investigations during the action implementation may lead to a request for amendment, to change the description of the action set out in Annex B.

Checks, reviews, audits or investigations that find systemic or recurrent errors, irregularities, fraud or breach of obligations in any EU grant may also lead to consequences in other EU grants awarded under similar conditions ('extension to other grants').

Moreover, findings arising from an OLAF or EPPO investigation may lead to criminal prosecution under national law.

12.8 Extension from other grants

Results of checks, reviews, audits or investigations in other grants may be extended to this grant, if:

(a) the Beneficiary concerned is found, in other EU grants awarded under similar conditions, to have committed systemic or recurrent errors, irregularities, fraud or breach of obligations that have a material impact on this grant and

(b) those findings are formally notified to the beneficiary concerned – together with the list of grants affected by the findings – within the time-limit for audits set out above.

The Contractor or the granting authority will formally notify the Beneficiary concerned of the intention to extend the findings and the list of grants affected.

If the extension concerns rejections of costs or contributions: the notification will include:

- (a) an invitation to submit observations on the list of grants affected by the findings
- (b) the request to submit revised financial statements for all grants affected
- (c) the correction rate for extrapolation, established on the basis of the systemic or recurrent errors, to calculate the amounts to be rejected, if the beneficiary concerned:
 - (i) considers that the submission of revised financial statements is not possible or practicable or
 - (ii) does not submit revised financial statements.

If the extension concerns grant reductions: the notification will include:

- (a) an invitation to submit observations on the list of grants affected by the findings and
- (b) the correction rate for extrapolation, established on the basis of the systemic or recurrent errors and the principle of proportionality.

The Beneficiary concerned has 20 days from receiving notification to submit observations, revised financial statements or to propose a duly substantiated alternative correction method/rate.

On the basis of this, the Contractor or the granting authority will analyse the impact and decide on the implementation (i.e. start rejection or grant reduction procedures, either on the basis of the revised financial statements or the announced/alternative method/rate or a mix of those).

Article 13 – Breach of Contractual obligations

In the event of the breach of the contractual obligations by the Beneficiary, the Contractor or the granting authority may alternatively, depending on the circumstances of specific case, reduce the grant or terminate the grant and request the Beneficiary to refund in the totality of all payments made to the Beneficiary.

Specifically, the Contractor or the granting authority shall have the power to reduce the grant or terminate the grant and request the Beneficiary to refund in the totality of all payments made to the Beneficiary in the following circumstances:

- (a) the Beneficiary (including any person acting on behalf of the Beneficiary) has committed:
 - (i) substantial errors, irregularities or fraud or
 - (ii) serious breach of obligations under this Agreement;
 - (iii) a breach of any of the obligations under Article 2.2 (Obligation in properly implement the Action); Article 3 (conflict of interest), Article 4 (confidentiality and security), Article 5 (Ethics), Article 8 (visibility), Article 9 (specific rules for carrying out action), Article 10 (information), Art. 11 (record-keeping);

(iv) serious breach during its award in the Open Call (including improper implementation of the action, non-compliance with the call conditions, submission of false information, failure to provide required information, breach of ethics or security rules (if applicable), etc.);

(b) the Beneficiary (or a person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed – in other EU grants awarded to it under similar conditions – systemic or recurrent errors, irregularities, fraud or serious breach of obligations that have a material impact on this grant;

(c) some costs are ineligible according to this Agreement.

In case of reduction the amount of the reduction will be calculated for the Beneficiary concerned and proportionate to the seriousness and the duration of the errors, irregularities or fraud or breach of obligations, by applying an individual reduction rate to their accepted EU contribution.

In case of reduction or recovery of the full grant as a result of a decision of the granting authority, the granting authority will follow its procedures.

In case of a Contractor's decision the Contractor shall send to the Beneficiary a written notice stating:

(i) the reason for the reduction or the termination and full recovery of the grant;

(ii) a term of at least 15 (fifteen) days to remedy the breach (if possible) or to submit observations if the Beneficiary disagrees with the Contractor's decision;

(iii) the warning that, after the term is elapsed if the breach is not remedied, the grant shall be considered reduced or terminated

After the term is elapsed the Contractor shall send a final notice to confirm the reduction or the termination or the different outcome, where any remedy made or observation submitted shall be considered.

Article 14 – Financial contribution and financial provisions

14.1 Maximum grant amount

Under this Agreement, the Beneficiary is granted the direct financial support of EUR as a lump-sum (amount written in words euros) related to Action presented on

Annex A and selected to be funded.

The eligible costs must be declared as a lump sum. The lump sum funding system provides considerable simplification for the applicants as it removes obligations on cost reporting based on timesheets or invoices.

The Funding will be released by the Contractor to the Beneficiary after all of the following conditions have been met:

- The Beneficiary has completed all activities included in the Action within the Final Term or any intermediate term and in compliance with this Agreement;
- The Beneficiary has sent all reports and monitoring related documents mentioned in this Agreement.

The Beneficiary is solely responsible for the accuracy of all data provided to the Contractor.

14.2 General payment terms and obligations of beneficiaries

All payments will be made in Euro.

Expenses incurred for the implementation of the Action must be made for the only and close purpose of achieving the objectives and expected results settled in Annex B, in a transparent manner, consistent with the principles of economy, efficiency and effectiveness.

The cost of payment transfers will be borne as follows:

- the Contractor bears the cost of transfers charged by its bank;
- the Beneficiary bears the cost of transfers charged by its bank;
- the Party causing a repetition of a transfer bears all costs of the repeated transfer

Payments by the Contractor will be considered to have been carried out on the date when they are debited to its account.

Payments will discharge the Contractor, from its payment obligation.

The Contractor will not be responsible for paying any costs applied for and incurred by the Beneficiaries in case of non-compliance with the terms and conditions of the Open Call and of this Agreement.

The financial support will be provided **in up to 3 instalments**, based on the deliverables achieved and linked to the submission of reports (**as stated above**), as follows:

1. First payment of 25% of total amount will be made 2 months after the activity starting date, linked to a **first report** stating the activity realised which should be of a value at least equal to the first payment (the costs already borne by the Beneficiary should be specified) **[if Declaration of financial capacity meets the criteria to receive the intermin payment of 25%]**
2. Second payment of 25% or 50% (in case first payment was not activated) of total amount will be made 5 months after the activity starting date, linked to a **second report** stating the activity realised which should be of a value at least equal to the first payment (the costs already borne by the Beneficiary should be specified).
3. Final payment of 50% of the total amount will be carried out after the end of the funded activity and will be linked to the **final report**, including full description of the activities realised and the achievements obtained and all supporting documents relating to completion of the Action.

All reports should contain enough details and information to give a full, clear, correct and complete description on how the Action has been realised. The Contractor may always ask for an integration or redrafting of the reports, additional information, supporting documents

(including proof of costs incurred, invoices) or a meeting in order to have all necessary information to assess the completion of the Action. Only when the Contractor states that the report contains all necessary information and include all supporting documents (through a signed letter that will be send via email to the Beneficiary), the report may be considered as accepted for the purpose of this Article.

All payments will be carried out within 60 days after the acceptance of the correspondent report.

The final payment will be carried out by the Contractor within 60 days after the acceptance of final reporting and verifying the Beneficiary's participation to the final event (in presence), when required.

The payments will be made in euro to the bank account indicated by the Beneficiary and in case of more Beneficiaries and must be distributed to the other Beneficiaries without unjustified delay.

For the sake of clarity 'acceptance' means just the completion of all verification necessary to make the payment and do not prejudice the right of the Contractor and of the granting authority or any other authority to reduce, to recover and to terminate the grant on basis of further examination, information, checks and audit.

For further information on reports see below Article 14.5

14.3 Final grant amount – Calculation

The final grant amount depends on the proper implementation of the Action in accordance with the Agreement's terms and conditions.

This amount is calculated by the Contractor – when the payment of the balance is made subject to reduction due to substantial errors, irregularities or fraud or serious breach of obligations (including reduction for ineligible costs). If the grant is reduced due to one or more of these conditions, the Contractor will calculate the reduced maximum grant amount by deducting the amount of the reduction (calculated in proportion to the seriousness of the errors, irregularities or fraud or breach of obligations,) from the maximum grant amount.

14.4 Revised final grant amount

If – after the final payment (in particular, after checks, reviews, audits or investigations carry out by the Contractor or by the granting authority) – the Contractor or the granting authority rejects costs or reduces or terminates the grant, the Contractor or the granting authority shall have the right to recover any amount paid and not due after the rejections of costs or reduction or termination of the grant.

14.5 Supporting documents

In order to receive the lump-sum, the Beneficiary has **to provide three (3) reports** based on the objectives and goals stated in the application form and according to this Agreement conditions. The template will be provided by the Contractor in due time.

Along the project development, the Beneficiary must present **a first and partial report** of activities for the first 2 months after the activity starting date. Once aproved, via email, the

report can trigger the first payment (25% of the total amount) to the Beneficiary, if stated in this Agreement. Along the project development, the Beneficiary must present **a second report** of activities 5 months after the activity starting date. Once approved, via email, the report can trigger the second payment (25% or 50% of the total amount) to the Beneficiary. **A final report** must be presented at the end of the activities, to trigger the final payment (50% of the total amount) to the Beneficiary. Furthermore, they must present **the proof of participation to the PowerUp NetZero final event** (whose place and date will be communicated in the coming months by the Contractor on behalf of PowerUp NetZero Consortium).

This means, to sum up, that two reports will be presented by the Beneficiaries and two payments will then be made:

- A first activity-report after 2 months of the starting date and not later than **15th February 2024**, to receive the 25% of the total amount **(if included here)**.
- A second mid-term activity-report after 5 months of the starting date and not later than **15th February 2024**, to receive the 25% of the total amount.
- A final activity-report after the end of the funded activity and after the participation to the final event of the PowerUp NetZero project. Not later than **31st May 2024**.

All documents must be sent signed and via email to the Contractor email: punz@piemonteinnova.it respecting the deadlines.

Article 15 – Liability of the Contractor and of the Beneficiary

The Contractor cannot be held liable for any acts or omissions of the Beneficiary in relation to this Agreement.

The Beneficiary shall bear sole responsibility for ensuring that their acts within the framework of this Agreement do not infringe third parties' rights.

The Beneficiary must compensate the Contractor and the granting authority for any damage it sustains as a result of the implementation of the Action or because the Action was not implemented in full compliance with the Agreement.

The liability does not extend to indirect or consequential losses or similar damage (such as loss of profit, loss of revenue or loss of contracts), provided such damage was not caused by wilful act or by a breach of confidentiality.

Article 16 – Force Majeure

Any default of a service, defect in equipment or material or delays in making them available, unless they stem directly from a relevant case of force majeure, as well as labour disputes, strikes or financial difficulties cannot be invoked as force majeure.

The Parties shall take the necessary measures to limit any damage due to force majeure. They shall do their best to resume the implementation of the action as soon as possible.

No Party shall be considered to be in breach of its obligations and tasks if such breach is caused by Force Majeure. A Contracting Party will notify the other Contracting Party of any Force Majeure as soon as possible. In case the Beneficiary is not able to overcome the consequences of Force Majeure within 10 (ten) days after such notification, the Contractor will decide accordingly including the termination of the Contract.

The Beneficiary shall ensure that all necessary authorisations for such publication have been obtained and that the publication of the information by the Contractor, POWERUP NETZERO Consortium or EC, does not infringe any rights of third parties.

Upon a duly substantiated request by the Contractor on behalf of the Beneficiary, the granting authority, the EC may agree to forego such publicity if disclosure of the information indicated above would risk compromising the beneficiary's security, academic or commercial interests.

The complete Ethic Code is found [here](#).
